

Dear Parents and Fans,

The Mid State conference administrators met and have laid out guidelines for the conference volleyball tournament. Please review the following items so you are aware of what the expectations are before the tournament begins.

1. Masks will be required by all spectators. This will be a requirement set forth by the NSAA for all postseason activities.
2. Spectators from all schools will be expected to leave immediately following your school's game. We need your cooperation on this so we can begin the next game after the completion of the previous game. You are asked to leave the facility and not loiter in the commons areas.
3. Spectators will not be allowed into the facility until there are 15 minutes left on the warm-up clock. This will allow the fans of the previous game ample time to leave before the new fans can enter. You are asked to please wait in your vehicle and not be mingling outside the facility.
4. All teams will leave the playing surface immediately following their match.

We are asking for everyone's cooperation on these guidelines so we may run a safe and successful conference tournament. If each person does their own part, all of our conference teams will hopefully be healthy and at full squads entering their sub district tournaments.
